EXPERIENCE

URBAN COMPANY(URBAN CLAP) | SDE 1
DEC 2020 - AUG 2022 | Banglore, India
- Identified the areas which are core to capacity calculation, slot creation, slot page presentation and worked on dis-binding them from our monolith.
- Migrated the native android provider screens to the react native using the in-house framework called Orion.
- Worked on the provider calendar, which is an integral part of the matchmaking algorithm to find the nearest available provider.
- Led a project with a team of two engineers and solved the slot block issue in the customer journey by providing more partners to deliver the request instantly.
- Introduced various capacity and match-making filters to optimize the response time and to find the most suitable service provider to deliver the service.

NCR CORPORATION | Software Engineer 1
JAN 2020 - DEC 2020 | Hyderabad, India

- Designed and developed web applications for the financial banks using ReactJs and SpringBoot.
- Monitor and report systems resource consumption trends to assure production systems meet availability requirements and hardware enhancements are scheduled appropriately.
- Dexterously handled a team of interns to develop a hiring platform for the organization.
